One Piece (stylized in all caps) is a Japanese manga series written and illustrated by Eiichiro Oda. It has been serialized in Shueisha's shōnen manga magazine Weekly Shōnen Jump since July 1997, with its individual chapters compiled into 101 tankōbon volumes as of December 2021. The story follows the adventures of Monkey D. Luffy, a boy whose body gained the properties of rubber after unintentionally eating a Devil Fruit. With his crew of pirates, named the Straw Hat Pirates, Luffy explores the Grand Line in search of the world's ultimate treasure known as "One Piece" in order to become the next King of the Pirates. Follows the adventures of Monkey D. Luffy and his pirate crew in order to find the greatest treasure ever left by the legendary Pirate, Gold Roger. The manga spawned a media franchise, having been adapted into a festival film produced by Production I.G, and an anime series produced by Toei Animation, which began broadcasting in Japan in 1999. Additionally, Toei has developed fourteen animated feature films, one OVA and thirteen television specials. Several companies have developed various types of merchandising and media, such as a trading card game and numerous video games. The manga series was licensed for an English language release in North America and the United Kingdom by Viz Media and in Australia by Madman Entertainment. The anime series was licensed by 4Kids Entertainment for an English-language release in North America in 2004, before the license was dropped and subsequently acquired by Funimation in 2007. = Requires a cable provider login One Piece has become something of a colossal cult-phenomenon around the world, though it's a household name in Japan thanks to Toei

Animation's seemingly undying commitment to Shonen Jump adaptations, such as Dragon Ball, Dr. Slump, Saint Seiya and Slam Dunk,At over 900 episodes this show has become probably the longest running digitally-painted anime in history: thanks to Toei's transition to digital cel-animation in the late 1990s. This show's got great characters, a fun world and the action gets just enough punch to not be too boring or derivative of Toei's other Shonen-derived shows.This is an anime household name and anyone into Japanese animation should give this one a shot. P.S. You DON'T need to have seen all of this show's episodes because... y'know: it's ridiculous catch-up time in one sitting. Years past, the fearsome pirate king Gol D. Roger was implemented, leaving a huge pile of treasure and also the famed"One Piece" behind. Whoever claims the"One Piece" is likely to soon be termed the newest pirate king. Monkey D. Luffy, a boy friend that he consumed one of those"Devil's Fruits", has it in his mind he'll follow in the footsteps of his idol, the goddess Shanks, and find the One Piece.
